/Me

I thrive on embracing challenges, seeking optimised solutions, and navigating complexities in an ever-changing environment. My strong desire to learn drives me to maintain high standards of work, and I'm excited to broaden my horizons by exploring the world of professional Software Development.

/Experience

Software and Web Development Intern July 2024–September 2024

Assured Insights

Managed and developed a suite of tools and products that enable companies to reach high data maturity and optimise their business processes

Software Engineer February 2024–Present

Glasgow University Software Service

Developing a large scale student wellbeing project with a team of software engineers using agile methodology.

Summer Work Experience September 2023

AccessFintech

Acquired valuable insights into the structure of a startup business, emphasising the significance of teamwork, communication, and meticulousness within a dynamic work environment.

Event Staff – 149th British Open July 2021

Spectrum Service Solutions

Contributed to maintaining a pristine and well-organised venue in the fast-paced environment of a prestigious event.

Video Editor 2017–2022

Freelance

Managed projects independently and produced high-quality, engaging videos for clients on a variety of social media platforms
